ABOUT ME

MSc Computer Science student and Web Developer Intern with hands-on experience in building real-time web applications using React.js and JavaScript. Successfully delivered multiple production-ready websites and contributed to an official company website. Strong foundation in frontend development, responsive design, and problem-solving. Actively seeking entry-level Frontend or Software Developer roles.

- **Soft Skills:** Problem Solving, Team Collaboration, Quick Learner
- **Concepts:** Responsive Design, DOM Manipulation, API Integration

PROJECT

Portfolio Website

Problem: Needed a professional way to showcase skills and projects

Designed and developed a fully responsive personal portfolio to effectively showcase projects and skills, improving online visibility through clean UI, smooth navigation, and reusable components.

Newsletter Sign-Up Page

Problem: Users struggled with mobile navigation and form interaction

Built a responsive newsletter sign-up page with form validation to improve user engagement and data accuracy. Enhanced mobile user experience by implementing an interactive navigation toggle

Advice Generator App

Problem: Required dynamic content display without page reload

Developed a JavaScript-based advice generator app to dynamically fetch and display real-time data using the Advice Slip API. Improved user interaction through asynchronous API integration and responsive UI

INTERNSHIP

United Soft Tech - Web Developer Intern

AUG 2025 - PRESENT

Currently working as a Web Developer Intern in the IT Department at United Soft Tech. I have successfully completed four real-time website projects using React.js and JavaScript, focusing on building responsive, user-friendly interfaces.

PROJECT: Contributed to the design and development of United Soft Tech's official company website

Collaborated with team members to understand requirements and deliver projects on time.

SkillChemistry - Full Stack Development Intern

JUNE 2025 - JULY 2025

Worked as a Full Stack Development Intern, contributing to the development of responsive and user-friendly web interfaces. Gained practical exposure to real-world front-end development workflows while collaborating with team members to deliver quality features within deadlines.

PROJECT: Developed responsive web interfaces using HTML, CSS, and JavaScript

Implemented UI enhancements to improve usability and visual consistency
